

Arkansas Coverage Options

Uninsured/Underinsured Motorist Coverages

Arkansas law requires that every auto policy include coverage for uninsured motorist bodily injury, uninsured motorist property damage and underinsured motorist bodily injury claims unless rejected by the named insured. If you reject uninsured motorist bodily injury or uninsured motorist property damage, you are not eligible to purchase underinsured motorist bodily injury. If you reject uninsured motorist bodily injury, you are not eligible to purchase uninsured motorist property damage.

Uninsured Motorist Bodily Injury - provides protections for persons insured who are legally entitled to recover damages for bodily injury including death from owners or operators of uninsured motor vehicles.

Uninsured Motorist Property Damage - provides coverage for damage to the insured vehicle in which an uninsured operator is at fault. Damages will be afforded in excess of the \$200 deductible.

Underinsured Motorist Bodily Injury – provides coverage for situations in which the at-fault operator's coverage is insufficient to cover expenses associated with the injuries sustained because of an auto accident.

Medical Payments and Other Personal Injury Protections

Arkansas law requires that every auto policy include coverage for medical payments and other personal injury protections such as work loss protection and accidental death benefits unless the named insured chooses to reject the coverage(s). Medical and Hospital Benefits, Income Disability Benefits, and Accidental Death Benefits can all be selected or rejected individually.

Medical and Hospital Benefits - covers up to \$5,000 of reasonable and necessary auto accident related medical bills that an insured person incurs within 2 years of an auto accident.

Income Disability Benefits - provides weekly lost income benefits for insured persons who are continuously disabled from an auto accident. Benefits will not begin until the 8th day following the accident and not to exceed 52 weeks.

Accidental Death Benefits - provides a \$5,000 payment to a representative of the insured if an auto accident causes the death of insured within one year of the event.

Coverage Rejections
